

# Life Line 100

## E9-1-1 ANI/ALI Controller

Life Line 100 is Positron's third-generation ANI/ALI controller and provides the highest level of 9-1-1 service and reliability to meet the strict demands of public safety. With a modular design and flexible configuration, the Life Line 100 supports your needs today and into the future.

The non-blocking design of the Life Line 100 ensures that all calls can be processed simultaneously, eliminating any potential bottleneck. System reliability is enhanced by Life Line 100's distributed microprocessor architecture allowing each module to operate under its own control. This independent operation ensures no single point of failure. Built-in redundant, hot stand-by modules ensure uninterrupted service and make the Life Line 100 ideally suited to critical 9-1-1 applications.

# Life Line 100

## Product Highlights

The Life Line 100 supports the widest range of telephony configurations, including seamless integration with Nortel Networks Norstar, Business Communications Manager and Meridian 1 as well as Avaya's G3 PBX. In addition, the Life Line 100 is the only ANI/ALI controller to offer continued call processing in the event of PBX failure.
